

NAVIGATIONAL CHART OF CITY BAY, NORTH HERO, VT, LAKE CHAMPLAIN

Below is a navigational chart to be used when arriving at the North Hero House by boat. The North Hero House marina is located immediately to the North of The North Hero House Steamship Pier. The Steamship Pier is shown on the Map just to the right of the words "North Hero". Please note that there is a small, unmarked shoal to the east of the marina which is shown in a small circle surrounded the number 2, i.e. 2 feet. To be sure to avoid this shoal, when arriving at the North Hero House, use our Swim Float as a target. The swim float is to the left or south of the Steamship Pier. When you are close to the Pier, i.e. within 50 feet, turn right or north and proceed to our docks. When departing the marina, retrace your steps. To avoid hitting the shoal never head directly east as you may encounter the shoal. Always head south to the Swim Float and then turn east to exit City Bay.
